

## Commitment to Quality and Excellence

We use only the highest quality and purest form of every ingredient manufactured in FDA inspected facilities to maximize your results. For optimal benefit, combine with other ZoiVi products.

**\*This product is manufactured in a cGMP-compliant facility regulated by the FDA.**

\*This product is not intended to diagnose, treat, cure, mitigate or prevent any disease or medical condition. These statements have not been evaluated by the Food & Drug Administration.

All ingredients are Kosher & Halal certified.

Manufactured in compliance with cGMP.

100% Made in the U.S.A.

### Supplement Facts DTX 1

Serving Size: 1 bottle

Amount Per Serving		%DV
Ascorbic Acid, Vitamin C	15g	*
25,000% Proprietary Liver DeToX Blend:	34g	*
Magnesium Sulfate Heptahydrate (USP grade)		*
Katuka (Picrorhizakarroa)(Roots and Rhizomes)		*
ZoiVi Multi-enzyme complex (Amylases, lipase, proteases and lactase)		*
Bhumyaamlaki (Phyllanthusamarus) (whole plant)		*
Indian Gooseberry (Emblicoefficalis) (fresh fruit)		*
Triphala Extract		*
AyurvedicAmla, Bahera, Harada digestive aid (Emblicoefficalis, Terminaliabelerica, Terminaliachebula) (seedless plant fruits)		*

\* Daily Value not established

### Supplement Facts DTX2

Serving Size: 1 bottle

Amount Per Serving		%DV
Natural Vitamin E (Soy-derived) (as d-Alpha Tocopherol)	30 IU	100%
Organic Safflower Oil (cold-pressed from organic safflower seeds)	3 oz	*

\* Daily Value not established

**NO** Yeast, Wheat, Sugar, Salt, Soy, Dairy, Fish, Preservatives, Artificial Colors or Flavors Added.

Eliminate and bring your body back into balance

Natural and organic ingredients

Immediate results Guaranteed!

Average waste loss of 2-5 lbs. within 24-48 hours

## **We all eat food everyday. It is a necessity.**

### **DTX<sub>1</sub> and DTX<sub>2</sub>**

We all eat food every day, but the problem is we don't really know what we are putting in our body! Since most foods today are treated with chemicals, hormones, and pesticides we experience a buildup of toxins as we age. Aside from being easily fatigued and tired, the body does not show any of the damage this causes until the later years. Our system is not designed to handle this toxic buildup, and the body begins to slow down struggling to maintain normal functions. This is the source of an imbalance in the body.

This toxic buildup results in many health issues over time, yet it's not until we approach the 30's, 40's and 50's that most health issues begin to show. Today more than ever a detox has become an important part of maintaining a clean and balanced system. In order to eliminate the buildup we begin with the DTX, a full body detoxification and cleansing system to bring the body back in to balance, allowing it function at peak levels.

The DTX<sub>1</sub> starts at the source of the build up (the liver) and prepares to cleanse the body from the inside out using a unique combination of minerals, salts, and super anti-oxidant berries. The DTX<sub>2</sub> is a unique blend of organic safflower oil and natural organic Vitamin E.

The DTX<sub>2</sub> initiates the detox effect, it is natural, and using organic ingredients makes sure you get maximum results!

Depending on body type and size, the average waste loss in 24 - 48 hours is 2 - 5 lbs. The DTX is not a weight loss system, however, the cleansing process can eliminate build-up in the belly area (otherwise known as the "pooch") and can start the process to having a much healthier system. This is the foundation to better health, and a natural way of restoring your body. When we consume food, our body breaks it down for nutrition, absorbs the good, while eliminating the waste. This is where problems begin to develop. Anytime we consume anything non-organic, it has been treated with pesticides, hormones, and chemicals.

### **Begin at the source**

The ZoVi DTX is designed to help eliminate the toxins that have accumulated from foods over time. The process begins with the liver, and completes throughout the rest of the body.

### **Overnight process**

As we get older, we start experiencing health issues, and while most attribute these things to old age, the truth is it's just a matter of bringing the body back into balance. The DTX is designed to help eliminate the toxins stored in the body, beginning with a full liver cleanse, total body cleanse, and in only 24 hours! The unique combination of natural vitamin-E combined with organic safflower oil creates a cleansing effect unlike any other.

## **Guaranteed Results**

We can guarantee results for anyone within 2 days of using the DTX. Clinical tests show the eliminated waste is composed of Fluoride, Sulfide, SO<sub>4</sub>, Mercury, and Nitrate. The average person eliminates about 2-5 pounds within their first 24-48 hours of using the DTX, through water weight, toxin elimination, and increased metabolism. The next step is to optimize health through proper supplementation and nourishment.

## **Science behind nature**

The synergistic ingredients of our DTX<sub>1</sub> and DTX<sub>2</sub> allow for a gentle yet complete cleansing. The ingredients focus on different functions allowing full body detoxification.

### **Magnesium Sulfate Heptahydrate**

Eases the liver and gallbladder cleanse by triggering gallbladder contraction and relaxing the muscles controlling the release of bile into the intestine. Supports detoxification and removal of small stones. Ascorbic acid health benefits are beyond the body detox, such immune boosting, anti-aging, mineral absorption and allergies.

### **Phyllanthusamarus (whole plant)**

Phyllanthusamarus has been used in Ayurvedic medicine for over 200 years for asthma, bronchial and genitourinary infections, bacterial infection of the GI tract, and eye ailments. In addition, the plant is successfully used for liver protection / detoxifier and a traditional medicine for jaundice and viral hepatitis B.

### **Triphala**

It is considered a cornerstone of Ayurvedic medicine. Tripala consists of equal amounts of three medicinal herbs: Emblica officinalis (Amla), Terminalia chebula and Terminalia bellirica. Triphala boosts the body detox by stimulating bile-flow and has special benefits of each plant in terms of liver protection against free radicals, hepatitis viruses, and liver damaging chemicals.

### **Amla**

This ingredient is one of most powerful natural antioxidants and additionally, it has been used as a digestive aid, hepato protector and anti-diabetic. Studies conducted by Rafatullah (2002), Suryanaraya et al (2004), Rao et al (2005) and Yokozawa (2007) demonstrated amla's healing efficacy in cases of stomach ulcer and carcinogen induced liver ailments. In addition, amla reduces hepatic fibrosis, which is a major prelude of chronic liver disorders including chronic inflammation, cirrhosis and hepato cellular carcinoma.

### **Terminalia bellerica (Bahera)**

In Ayurvedic, Terminalia bellerica (TB) is used for digestive, urinary, and respiratory tract ailments and it is also well known a strong natural rejuvenator this sentence doesn't make sense. Studies discovered TB lowers lipid levels in the body, particularly heart and liver. In other words, TB is beneficial in preventing fatty liver and heart disorders.

### **Terminalia chebula (Harada)**

The hepato protective effect of Terminalia chebula (TC) extract can be mediated by its antioxidant and membrane stabilizing activities. TC extract administration in liver toxicity that are triggered confusing by antibiotics for tuberculosis treatment prevented biochemical and histological alterations.

## **How it works (Overview of Mechanism of Action)**

The liver is responsible for filtration of all incoming foods and fluids. The body relies upon the liver to remove toxins so that nutrients supplied to the body are pure and capable of providing nourishment. After distributing the nutrition throughout your body, and eliminating the waste, any elements the liver cannot handle stays in the body, such as chemicals, pesticides, hormones. This is why sometimes if vegetables are not washed correctly some people experience allergic reactions such as an itchy throat or rashes.

Over time these chemicals can become carcinogenic (cancer-causing), or disease causing. A detox is necessary to cleanse the body of these elements.

The DTX system is designed to initiate a full body detox, facilitating digestion through the breakdown of macronutrients, which results in better absorption and retention of nutritional constituents in the body. (Poor digestion, for instance poor protein digestion produces harmful substances that burden the detoxification capacity of the liver. These substances cause other problems including impaired absorption, unfavorable pH change, intestinal microbial overgrowth, putrefaction and hormone imbalance. These indigested constituents lead to chronic degenerative disorders, such as gastrointestinal disease and cancer.

Test results on the bile stones passed by people on our product were completed by a laboratory that performs soil analysis via F.D.A. standards and guidelines. The findings were as follows:

100% of the stones contained So<sub>4</sub>, a by-product of fossil fuel and biomass combustion. This is very acidic and may potentially lead to major pH changes in the body.

100% of the stones contained sulfide, a component of "mustard gas", solvents, dyes, and industrial chemicals.

70% of stones contained both fluoride (found in water, soil) and nitrate (used to preserve color and cured meats such as bacon and hot dogs).

40% of stones contained mercury, a known neurotoxin to the human body!

These chemicals are found in the water we drink, foods we eat, and air we breathe. It is not an accident that we are toxic. If someone is not detoxing, they are accumulating these toxins without knowing it. And by the time it shows, the damage has been done.

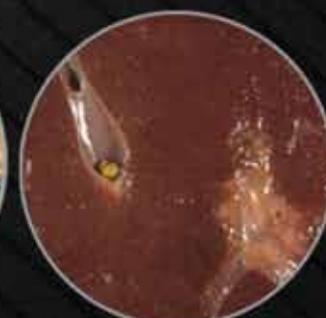

After a DTX, many notice an improvement in energy, digestion, skin clarity, appetite and even their physique.

The 24 hour DTX process is simple, effective, safe, gentle and is GUARANTEED!

We use only the highest quality and purest form of every ingredient manufactured in FDA inspected facilities to maximize your results. For optimal benefit, combine with other ZoVi products.

**Toxic Liver**
